A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's amendment filed on January 10, 2005, which amends claims 1 and 7, cancels claim 12 and adds claims 13 and 14, has been entered.

Claims 1-11, 13 and 14 are pending.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The specification has been amended as follows:

Page 2, line 8: "state," has been changed to --state--.

The abstract (abstract filed December 06, 2002) has been amended as follows:

Line 4: "emitter of" has been changed to --emitter or--.

The claims have been amended as follows:

Claim 11, line 1: "1211." has been changed to --11--.

The rejections based on Mori et al. (US 5,281,489) in view of Boyer et al. (US 5,189,029) or Czerney et al. (*Applied Fluorescence Technology*) or Czerney et al. (DD 265266 A1) (further in view of Zhang et al. and Hung et al. in the case of claims 5, 7 and 8) are overcome by applicant's amendment filed January 10, 2005. Mori et al. do not provide any motivation to select light emitting compounds that also act as electron transporters. Further, the secondary references of Boyer et al. and Czerney et al., while disclosing compounds of Formula I as light emitting compounds, are silent with respect to electron transporting properties of the compounds.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest an organic light emitting device having the structure set forth in present independent claims 1, 13 and 14 wherein a compound of Formula I functions as both an electron transporter and a light emitter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Marie R. Yamnitzky at telephone number (571) 272-1531. The examiner works a flexible schedule but can generally be reached at this number from 6:30 a.m. to 4:00 p.m. Monday, Tuesday, Thursday and Friday, and every other Wednesday from 6:30 a.m. to 3:00 p.m.
